

RestaurantPOS User Manual

- Run the program.
- You will see some buttons, a drop-down menu, a blank side, and a total down at the bottom of the screen.
- First, select which table you would like to take the order under using the drop-down menu at the top.
- Then, go ahead with taking the order. Click away at any menu item with its price on the left-hand side, this will add that specific item to the list on the right.
- Notice how the total adds up with each item added.
- Make a mistake and need to delete an item? Simply select the item within the list after ordering and select the “Remove Item” button.
- All finished with the order (Perhaps the table has left)? Simply select the “Clear Order” button and the list shall clear.
- Don’t be afraid to take an order from one table and jump around to other tables to take their orders. All of the orders should be saved under their respective tables.
- To close out the system, click the “X” in the top right corner and the program should close.
